Manchester, 3rd September, 1940.

Dear Sir,

We have to advise you that the s.s. "EMPIRE BISON" ex "WEST CAWTHON", which has been at this Port for Classification, has now left for the U.S.A.

In connection with the survey of the Electrical Installation, it has been recommended that the Main Switchboard Panels be renewed on the vessel's arrival in the U.S.A, and, at the same time, it has been recommended that the switching of the two Dynamos should be arranged so that they cannot be run in parallel.

The Electrical Installation has been examined and tested, and found to be generally satisfactory. Our report will be forwarded in due course.

We are, Dear Sir,
Yours faithfully,
The Surveyors.

R. C. Clayton

The Secretary,
LONDON.
