

Lloyd's Register of Shipping.

Port PHILADELPHIA, PA.

21st October, 1931.

This is to Certify that

J. M. BUCHANAN

the undersigned Surveyor to this Society did ~~at the request of~~ on March 7th, 1931, and subsequent dates, survey the Italian Steam Tankship "ALABAMA" of Genoa, 7025 Tons Gross Register, of the Petroleum Soc. Anon. di Nav. of Genoa, relative to damages alleged to have been sustained by stormy weather on March 2nd, to 6th, 1931.

With reference to the slightly waved deck plates in the Shelter deck (or bridge deck).

These plates were noticed to be very slightly waved at a point approximately a little forward of the steering Engine House, but while there was this slight wave, there was no indication, nor did I believe, this to be of recent origin, therefore, I could not attribute same to the heavy weather on March 4th, 1931, and for this reason no recommendations were made to deal with same.

W 305-0303

J. M. Buchanan

Surveyor to Lloyd's Register
of Shipping.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
