ALL COMMUNICATIONS TO BE ADDRESSED TO THE COMPANY.

Ref: O

The Surveyors to Lloyd's Register of Shipping,  
BELFAST.

Dear Sirs,

With reference to the attached account in respect of fees in connection with the Survey of No. 616 M.V. "Accra": We desire to call your attention to a payment made by us to your Glasgow Office in June last amounting to £25.10.0 in respect of the Survey during construction of the auxiliary engines for this vessel, and to enquire if credit for this amount could not be given in the account now rendered by you for the fees for the main machinery etc.

We would point out that if the auxiliary engines had been built by us at Belfast we would not have had to pay the additional fee, and we are of opinion that when it is convenient to us to construct auxiliaries at one of our Branch Works we should not be called upon to pay extra Survey fees, as, although it necessitates the Surveyor in another district engaging on the Survey, we consider that no further expense is thereby entailed by the Society, as, of course, the work to be done by the Surveyor at this end is correspondingly diminished.

We are aware that the point has been brought up for consideration in the past and a ruling given, but as we may frequently find it convenient to have auxiliaries constructed at our Branch Works we desire that the matter might again be brought to the notice of your Head Office with a view to having what we consider an anomaly removed.

We shall be glad to have your observations hereon in due course, and in the meantime perhaps you would be good enough to arrange for the issue of the Classification Certificates relating to the "Accra", and, if desired, we could make a payment on account.

Yours faithfully,  
FOR HARLAND AND WOLFF, LIMITED.
