Lloyd's Register of Shipping.

Port GREENOCK.

29th June, 1929.

This is to Certify that

JOHN DAVEY

the undersigned Surveyor to this Society did at the request of Messrs. John G. Kincaid & Co., Ltd., Engineers, Greenock, survey during construction two steel Air Reservoirs intended for their Engine No. K.44, Messrs. Robert Duncan & Co's M. V. 392.

The scantlings are in accordance with the Rules for a working pressure of 356 lbs. per square inch.

The material has been tested by the Surveyors to this Society.

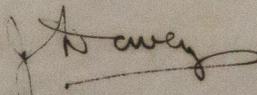

These Reservoirs were tested in the presence of the undersigned to a hydraulic pressure of 556 lbs. per square inch, and found tight at that pressure.

The working pressure should not exceed three hundred and fifty-six pounds.

Mark on Reservoirs:

No. 1877.
LLOYD'S TEST 556,
per square inch.
W. P. 356 lbs.
J. D. 28/6/29.

FEE:- £8:8:-

Surveyor to Lloyd's Register,

GREENOCK.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
“While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society.”
