October 9th, 1934.

Dear Mr. Scott:-

S.S.'s "CHARLES PRATT" &
"F. Q. BARSTOW"

Reverting to your letter of the 5th February last and previous correspondence respecting the Report made by Dr. Ripley on the samples of shell plates taken from the above vessels, I may say that I inquired about this matter the other day at the Standard Shipping Company's Office, and they have now sent me copies of letters dated July 10th and 24th, 1933, and January 18th, 1934, regarding the investigation made by their own Engineering Department.

Yours faithfully,

J. Breuch

Malcolm K. Scott, Esq.,

LONDON.
