

17, BATTERY PLACE,

NEW YORK.

January 26, 1934.

Dear Mr. Scott:

I was duly favored with your letter of the 9th instant respecting the Report made by Mr. Ripley in connexion with the samples of shell plates taken from the bottoms of the above named vessels, and the copies of the micrographs have also come to hand. One copy has been handed to the Officials of the Standard Oil Company, who have promised to let me know what their own metallurgists develop in connexion with this matter.

Thanking you for your attention, and
with kindest regards,

Yours faithfully,

A. Scott, Esq.,
LONDON.
