Dear Sir,

In reply to your letter of the 27th. instant respecting Liverpool Report No. 115746 on the steamer "DEMETERTON", I have to acquaint you I am advised by the Surveyors that as the centre line bulkhead and transverse bulkhead in question were non-water-tight, the bolted patches did not effect the vessel's class, and consequently it was left to the Owners to make a claim at the cessation of hostilities.

I am, Dear Sir,  
Yours faithfully,

Secretary to the  
Liverpool Committee.

The Secretary,  
LONDON.
