Dear Sir,

In reply to your Classing letter of the 8th instant respecting the M.V. "FULTALA", S'land Report No. 32996, we beg to state the breadth of the bracket floors at the middle line should be 45" instead of 32½". In addition to the beams in way of the deck openings the through beams are 9 x 3½ x .38 B.A. and 10 x 32 x .44 B.A. at upper and second decks respectively. Cement has been laid in the double bottom tanks except in way of Nos. 4 and 5 oil fuel tanks.

We are, Dear Sir,

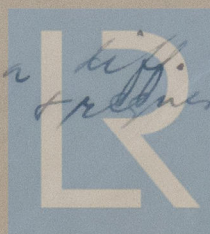

Yours faithfully,  
THE SURVEYORS,  
PER:
