22nd January, 1918.

Dear Mr. Brown,

Your letter to hand regarding your freeboard report on the S.S. "TRENEGLOS" which quite explains the tonnage measurement as compared with the previous sister ship "TREGENNA" for which I thank you.

I presume tween deck bulkheads are fitted between the Upper and Shelter deck in way of the tonnage opening originally intended, but shall be glad if you will let me know this for noting on the report, and also the height of the coamings fitted to the ~~original~~ tonnage opening.

With kind regards,

Yours faithfully,

Geo H Mares
