

S.S. "GANDARA".

It is submitted the Gibraltar Surveyor be informed
it is noted that the damage to the frames in No.1 Hold only
extends for two strakes above the level of the tank top.
In the circumstances the extent of the ^{new} reversed bars may be as
proposed by the Surveyor. Efficient straps must be provided
connecting the new 9 inch frames to the original 10 inch
frames.

It is noted that it is proposed to use plates and
frames, in the repairs, which have been tested by the Admiralty.
The Surveyor should ^{first} forward to this Office the particulars
of such tests.
