

COPY.

15th November, 1937.

Enclosure.

Dear Mr. Lewis,

With further reference to the official letter regarding the "IRENE MARIA", I think it well to enclose herewith a short history of the port boiler for your information in dealing with the case.

The sample was of course removed from the port boiler some years ago and was retained by the Chief Engineer, and in view of the trouble now experienced with the starboard boiler Mr. Laing obtained this sample and has forwarded it on here.

With kind regards,

Yours faithfully,

W.E. Lewis, Esq.,

GLASGOW.
