Observations, Opinion as to Class, Recommendation, &c. :-

clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon thus, for example :- "to remain as classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of 3," or "to remain as classed and to have record of survey, 1,38, and the notations of ss No. 1-38."

essel is eligible in my opinion to remain as classed, without fresh of survey, subject to being specially examined at next drydocking to all other conditions at present attached to the vessel's class being out as previously recommended
