215 Market St., San Francisco, Calif.

January 16, 1942.

Principal Surveyor,

NEW YORK. New York.

Dear Sir:

M/S "HOEGH MERCHANT"
S.Fo. 8482

With reference to your letter dated January 2, 1942, wish to state that the term "glider pistons and cylinders", a nomenclature used in this port, refers to both "top and bottom exhaust pistons and cylinders".

In the future when writing reports describing the various parts, the usual terms will be adhered to.

Yours very truly,

/s/ M. CLEGG.
