BARTRAM & SONS LTD.

Messrs. Dorman, Long & C/L.,
MIDDLESBROUGH.

19th April, 1939.
(Wednesday.)

Dear Sirs,

CODE TT.

Further to your telephone conversation with our Mr. Johnson yesterday, we have pleasure in giving below list of scantlings of Chromador steel showing increase of 5% over Mild Steel thicknesses:-

1. Centre Girder Angles.
2. Material in double bottom tank,
Engine and Boiler room.
3. Tank top in Engine room space.

Please note that all material in Deep Tank - frames, T.O.B's brackets - and tank top in Deep Tank are of Mild Steel thickness.

Chromador steel plates and sections are being used for corrosion resisting purposes only.

Yours faithfully,

VB.
20.4.39.
