Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

6th December, 1939.

Dear Sirs,

Messrs. Bartram & Sons' Yard No. 282
The N.E. Mar. Eng. Co.'s Contract No. 2952

E.

I am in receipt of your letter of the 1st instant respecting the plan of Main Boilers for the above contract.

In regard thereto I may say it is noted that the distance between the lower row of steam space longitudinal stays and the upper row of tubes and screw stays is 1'-2.1/8", instead of 1'-1 3/4" as shown on the approved plan. No objection will be taken to this amendment, and the approved plan in this Office has been altered accordingly.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
SUNDERLAND.
