29th. June 1927.

Dear Sir,

T.S.S. "JUNA".

With reference to the enquiry contained in your Classing Letter of 28th. instant, regarding the Twin Screw Steamer "JUNA" First Entry Report No. 81484, I beg to state that two spare Bottom End Bolts & Nuts were placed on board with the spare gear. The thickness of the combustion chamber bottom plates of the boiler are 27/32" thick and not 23/32" as stated in error.

I regret that these mistakes were made in my report.

I am, Dear Sir,

Yours faithfully,

*L. G. Shallcross*

The Secretary,  
LONDON.
