

FREEBOARD REPORT on the

S. S. CHARLBURY.

Telephone message was today received from the owners, stating that they did not propose to mark the freeboards in London but that the vessel was proceeding to a Bristol Channel port, either Cardiff or Barry for Boiler survey when the freeboard survey would be completed. If we were requested to inform this office as soon as it was decided which port the vessel would proceed & it is submitted the case be left in abeyance until this information is received.
