Lloyd's Register of Shipping.

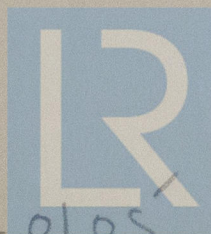

71, Fenchurch Street, E.C. 3.

25th January, 1935.

Algiers.

85638. STYLIANOS CASTANOS". With reference to your letter of the 24th ultimo, I have to acquaint you that it is reported that this vessel has been accepted by the Underwriters as a constructive total loss, and all claims paid. In the circumstances, the case was submitted to the Committee and a record of "Stranded 9,34 - Refloated - Now in port damaged" will be made in the Register Book, and this automatically cancels the vessel's class.

You will of course be quite in order in continuing any survey which you may be requested to hold, but this should be as an unclassified vessel, and any certificate issued should be on Form "C" and not "B" or "B1".
