Lloyd's Register of Shipping.

No 294

Port VIENNA

5 th. March 1928

Order A-97/D. St.

This is to Certify that

John Stanley Helyer

the undersigned Surveyor to this Society did at the request of Messrs. The Oesterreichische Alpine Montan-Gesellschaft test and inspect at their works at Donawitz 2000 kg. Siemens-Martin steel round bars for ship rivets, ordered by Messrs. Cantiere Navale Triestino of Monfalcone, and intended for vessels 193-203.

Results of Tests.

Test pieces cut from the material gave the following results.

Test No.	Charge No.	Tensile Kg/mm ² .	Elongation on 8 d
7	11295	42.9	30.8

Specification.

Charge No.	Length in mm.	Breadth.	Thickness.	Weight in Kg.
11295	3000	Ø	15	2000

Bend Tests Satisfactory.

J. S. Helyer

SURVEYOR TO LLOYDS REGISTER

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."

NOTE.—As it is impracticable to mark rivets, bars or tubes of small section for subsequent identification, it must be understood that this certificate does not guarantee the identification of the rivets, bars or tubes received by the consignee or purchaser, with those from which the samples tested were taken.
