GLASGOW W.4.

Réf.NML/JGH N/ Réf. JP/ML.

30th April 1931

Compagnie Auxiliaire de Navigation  
5 Avenue du Coq PARIS.

Dears Sirs,

The North of Ireland Shipbuilding C° Ltd  
(In Voluntary Liquidation)

s/s "NAUSICAA"

Your letter of 21st April addressed to the above Company at Londonderry, has been forwarded to me as Liquidator of the Company, for attention.

Messrs BARCLAY CURLE C° Ltd, who form part of the Swan Hunter Shipbuilding group in this country, have gone into the question raised in your letter for me, and they inform me that they find from the records of this ship that the coefficient of fineness as required by rule N° XXXVI of the International Convention respecting load lines would be 787. I trust that this information serves your purpose, but if you desire any further information in this connection, Messrs BARCLAY CURLE & C° Ltd have kindly offered to furnish it if the necessary particulars are available.

Yours faithfully  
(s) illisible  
liquidator
