

W529-0268

s/s "Ville d'Arras."

machinery of this vessel has been constructed  
per special survey.

H.P. & L.P. cylinder stuffing boxes were found  
leaked when machinery was tried under steam, the  
L.P. cylinder has been renewed & the H.P. cylinder  
thoroughly repaired. The Surveyors recommend that  
a new L.P. cylinder be fitted within three months.

It is submitted that  
this vessel is eligible for

**THE RECORD. + LMC 5.18. F.D.**

subject to a new L.P. cylinder being fitted before  
the end of August 1918.
