4th June, 1926.

Dear Mr. Moffitt,

S.S. "MIDDLESEX"

Mr. Leathard has informed me that the Owners' Representative has raised objection to the steam bilge suction in the new cofferdam space.

The arrangements of the bilge suction as shown on the approved plan are those proposed by Messrs. R. & H. Green & Silley Weir and apparently were in accordance with the Owners' wishes.

However, we shall not insist on the steam bilge suction being fitted in the Cofferdam, provided there is an efficient portable or fixed manual pump on board.

Yours truly,

ARK

R. Moffitt Esq.,

FALMOUTH.
