-8 NOV 1935

Lloyd's Register of Shipping.

Port FREMANTLE. W. A.

7th October, 1935.

This is to Certify that I have

examined the Boiler and Machinery of the Steel Screw Steamer "MINDER-
London, 2720 tons gross register for the purpose of ascertain-

ing the nature and extent of damage alleged to have been caused when
the vessel rested aground at Port Hedland on 14th September, 1935.

I have transmitted to the Committee of Lloyd's

of Shipping, London, a Report stating that all

observations made by me in connection therewith have

been carried out to my satisfaction, and that I have

renewed that the record of Classification

in the Register Book in the case of this vessel, subject to
repairs being carried out at the earliest opportunity.

Wm. G. Davies

Engineer Surveyor to Lloyd's Register.

issued upon the terms of the Rules and Regulations of the Society, which provide that :
of the Society use their best endeavours to ensure that the functions of the Society are properly
that neither the Society nor any Member of any of its Committees is under any circumstances
able for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any
other publication of the Society, or for any error of judgment, default or negligence of any of its
thereof, or the Surveyors, or other Officers or Agents of the Society."
