

Register of British & Foreign Shipping,

p. 29.8.08.

342, Argyle Street,

Glasgow Aug 26-1908

Dear Sir
You will remember
some time ago my enquiring
about closing of openings
on sides of a 320
tonner. Messrs G. & Co. have
received the order
for the vessel & as the
somewhat unusual
trouble you before
my official report.
The builders desire
is the means
all be approved for
by ~~the~~ closing openings
of Shelter Deck. They
hinged shutters fastened
in bundles with
think they might
be a factor in the
the fact that

the builders want a moulded
draft of 18-1" assuring & they
don't want any deeper
loading nor any less. If
the arrangement as shown
admits of any better allowance
than I have given they do
not want it, they merely
wasting such an arrangement
as will give them the fullboard
of 2.7" as shown. I am doing
this to oblige builders as
they want to submit the
case correctly so that there
will be no necessity for
any amendments. Of course
this is quite private &
I should be obliged if
you can let me know
that the arrangement as
shown will give the
fullboard. Kindly remember
me to all colleagues &
with kindest regards
yours faithfully

Henry A. H. B.
