Sladden,

I am obliged for your letter of  
instant and note that Mr. Douglas has discussed the  
the "GLITRA" with you.

I think he was probably prepared for  
ion which you state the Committee have come to, but  
e sure that he will appreciate the reasons as well  
urteous treatment he would receive at your hands.

I heard from his partner, Mr. Ramsey,  
ing that they will now probably bring out the  
nstead and as that vessel is only due for Boiler  
will be quite a simple case.

With kindest regards,

Yours sincerely,

*P. L. Warlow*
