2nd Special Survey No.3 due 5,35.  
Boiler Survey due 4,36.

This case was last before the Committee on the 24th March last when they had before them a letter from the Glasgow Surveyors stating that the vessel was laid up at Swansea and that the Owners had not decided whether she would be broken up or recommissioned, although it was unlikely she would be placed in commission again. In the circumstances the Committee deferred consideration of the case for a time.

The Glasgow Surveyors now state they have been informed by the Owners that the vessel is still laid up at Swansea and that the position regarding her is still the same.
