2nd Special Survey No.3 due 5,35.  
Boiler Survey due 4,36.

The Swansea Surveyors stated in August last that it anticipated the Special Survey would be held in February.

The Swansea Surveyors recently stated that the vessel was laid up, and that they had been informed that she had been purchased by Messrs. Douglas & Ramsey for breaking up purposes.

The Glasgow Surveyors now write they have been informed by Messrs. Douglas & Ramsey that the vessel is still laid up at Swansea, and that it has not yet been decided whether she will be taken up or recommissioned, although it is unlikely that she will be placed in commission again.
