

S.S. "MOERDIJK".

With reference to the remarks on the back of the report regarding the draught of this vessel, it is submitted the Surveyor be informed that as intimated in the Secretary's letter of the 9th July, 1920, the scantlings of the vessel were found to be deficient from the rule requirements for the shelter deck class, and in view of the deficiency the General Committee decided that the vessel might be classed 100A1 conditional upon the restricted draught of 26'-3" (extreme) being marked on the vessel's sides.
