

# Lloyd's Register of Shipping,

High Close, Wiltshire Road,  
Wokingham, Berks.

8th December, 1939.

H. To the Surveyor at Genoa.

*Ansd 23/11*

Vessel's Name, s.s. "MARZOCCO".

QUESTION.

ANSWER.

Reverting to your letter of the 11th November last, I shall be glad to make such definite arrangements the way as to propose making for the completion of the Special Survey No.2.

*JAS*

Date:— 10th Jan.1940.

We have been in touch with the Owner who states that the double bottoms under Engines & Boilers were examined and tested at Civitavecchia in April 1939, also at same time the Inner Bottom and Bilges in Engine & Boiler Spaces were examined. This has been verified from R.I. but apparently these items were done by a Non-Exclusive Surveyor of the Registro Italiano.

The Owners inform us however that the vessel is expected at an Italian Port in about one month's time, and he will do his best to have these items dealt with by the Society's Surveyors.

The R.I. have also the repairs to tunnel sheathing and W.T. doors indicators outstanding so efforts will be made to have these points also dealt with at the same time.
