# Lloyd's Register of Shipping.

71, Fenchurch Street, E.C. 3.

13th September, 1921.

Dear Sirs,

S.S. "BRAEMOOR".

The above vessel, built by Messrs. Pitchers Ltd., has left Yarmouth for Hull, where it is stated the engines and boilers will be installed and the survey completed.

I shall be glad if you will give the following items your attention on her arrival at your port:-

Forecastle and well deck to be retested.

Raised quarter deck to be tested.

Forecastle and raised quarter front side lights to be retested.

Collision bulkhead above watertight flat to test.

Screen bulkhead in machinery space to be made equal to web frame.

The builders state that they have arranged with Messrs. Amos Smith to carry out this work.

The steering gear, windlass, and pumps to be tried under steam.

I am, Dear Sirs,  
Yours faithfully,

The Surveyors,  
HULL.
