

S.S. "MANIN", built at Trieste by the  
Cantieri Navali & Acciaierie di Venezia,  
for the Societa Veneziana di Nav. a Vap.

---

The first survey of this vessel was held on the  
January 1920 and the last survey on the 5th July 1921.

She was launched on the 21st April 1921, and the  
Surveyor in forwarding his First Entry Reports states that  
the special request of the Builders the preliminary  
certificate was dated "JUNE 1921", although the ship remained  
in the Builders' yard several days after the end of June.

In order to avoid any possible future complications  
with the Government regarding the Subvention, it is desired  
that the date of build should be entered on the certificate  
as recorded in the Register Book as "6, 21".

The Trieste Surveyors were requested to ascertain  
whether the Owners of the vessel were in accord with this  
suggestion, and they now reply that they have taken up the  
matter with the Owners' Superintendent, and are informed that  
the Owners are agreeable to the date of build being registered  
as "6, 21".

It is submitted for the favourable consideration  
of the Committee that the date of build in this case be recorded  
as "JUNE 1921".
