It is submitted the Newcastle Surveyors be written to and reminded that in the letter addressed to them on the 4<sup>th</sup> October they were informed of what was required to be done to complete the survey on the hull for classification. If the work has been finished they should forward a report on the same on form no. 8 for the information of the Committee.

The Surveyors should at the same time be requested to forward the Registered particulars of dimensions and tonnage, provided the hull has been <sup>officially</sup> measured at their port,
