71, Fenchurch Street, E.C. 3.

29th July, 1921.

Dear Sirs,

Shel's NAME Steel S. I am in receipt of Mr. Demarest's letter of the 15th instant, together with First Entry Report No. 1224 on the hull of the S.S. "UNION", Messrs. Ateliers et Chantiers de Penhoet M.4., and in regard thereto I have to inform you that before this case receives consideration, it will be necessary for you to supply information as to whether the thickness of the centre girder top angles and bridge deck stringer angle are as stated in the report, or as shown on the approved plans.

I shall be glad if you will inform me whether, in view of the thickness of the second deck stringer, the butts are correctly reported as double riveted, and whether the spacing of the frame rivets in way of the 915 m/m frame spacing is as required.

I am, Dear Sirs,

The Surveyors,

NANTES.

Yours faithfully,

Secretary.
