

s.s. "SOMME".

It is submitted that the Certificate for the 15 fathoms of 2" chain cable should be forwarded to the Superintendent of the Cradley Heath Proving House, and he should be asked to state if this certificate is in order and if the tests were carried out under his supervision.

With regard to the chain cables for the "UNION", the Nantes Surveyor should be asked to forward any documents he may have regarding the testing of the chain cables, in order that the case may be considered in this Office.
