Boiler Survey due 5, 28.

Survey Due

This case last received the consideration of the Committee on the 3rd August when they agreed to a proposal to have the above survey carried out on the vessel's return home in five months' time.

The Hamburg Surveyors now state that the vessel was recently at that port for two days, but no opportunity was afforded to carry out the Boiler Survey. They forward a translation of a letter received by them from the Owners reading as follows:-

- " Although we drew the attention of our Hamburg branch to the
- " necessity of having the boilers in this vessel surveyed by
- " Lloyd's Register, the survey could not be carried out in P.T.O.

" consequence of the ice conditions in the harbour and the
" short stay of the vessel at that port.

" The internal examination of the boilers by the German Boiler
" Authorities becomes due in May of this year and we
" respectfully request that we might be permitted to have the
" survey postponed until that time in order to have the
" boilers examined by both Lloyd's Register and the German
" Boiler Authorities simultaneously. We have informed the
" Engineering Staff on board that the survey is to be held
" at any rate on vessel's return in May next and the date
" when the boilers are ready for inspection will be intimated
" to you in good time and without fail."

*Submitted for the favourable
Consideration of the Committee.*
