71, Fenchurch Street, E.C. 3.

ENCLOSURE.

8th May, 1919.

Dear Sirs,

With reference to your First Entry Report No. 71831 on the Single Screw Steamer "THISBE", I have to request that you will be good enough to fill in particulars of the framing, stringers, etc. in way of the Quarter Deck, and also the scantlings of the floors in way of the Boiler space, if, as would appear from the Pumping plan, the double bottom is now fitted at this part.

You should also state whether the double bottom (if fitted in way of the boiler space) has been tested in accordance with the Rules for double bottom.

I may add that the approved plans of Midship Section & Profile should be forwarded as is usual for reference, and the Builders should be informed that if they will prepare copies of the same and forward to this Office, the plans will be stamped and returned to them, if desired.

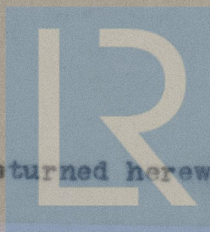

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

NEWCASTLE-on-TYNE.

P.S. The report in question is returned herewith.
