100 A1 Owners Anglo Saxon Pet. Co Ltd  
11.28 Port of Registry London  
2.28 13.5.29 L.M.C. 8.28  
for oil fuel  
Boiler Survey due 5.30

The Owners write:-

"We would explain that this vessel has been aground off the Venezuelan Coast although she is now in drydock at Curacao where the extent of the damage has been found so great that there is a possibility of disposing of the vessel as she lies.

Should, however, we ultimately decide to repair her the Special Survey of the Boilers will be given attention"
