Medical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the
 of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent repairs. Repairs
 account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes;
 besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the
 placement of Anchors or Chains is reported, the particulars should be clearly stated in the space provided on
 back of this form. State also the dates and initials of any letters respecting this case.

Damage cases where the Surveyor has not made a special damage report he is required to state whether he
 offered his services for this purpose and to whom and why they were declined

Was a damage report made by anyone else? If so, by whom?

General Observations, Opinion as to Class, Recommendation, &c.:—

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon
 this survey, thus, for example:—"to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of
 survey, 1,24," or "to remain as classed and to have record of survey, 1,24, and the notations of ss No. 1-24 and ptd 24, &c."

This vessel as now seen is in good condition and eligible in my opinion to
 continued as classed in the Register Book, with fresh record of survey Genoa 8-27.
