# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

26th January, 1924.

Dear Sirs,

With reference to your report No.77447 of survey recently held on the steamer "MAID OF SPETSAL", I have to point out that the Society's Rules only require non-return valves from soil or scupper pipes when the discharge is below or near the load water line, and I shall be glad if you will kindly explain whether the "tank side line" mentioned in your report refers to the double bottom tank or to the fore peak tank.

I am, Dear Sirs,

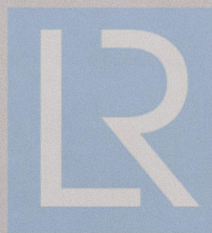

Yours faithfully,

Assistant to the Secretary.

The Surveyors,

NEWCASTLE/TYNE.

R. P. H.
