

## NORTH EASTERN RAILWAY.

WEST HARTLEPOOL DOCKS.

~~Dredger No.~~ *Diver's Keel.*WEST HARTLEPOOL, *Wednesday March 6<sup>th</sup>* 1918

Dear Sir,

Has per instructions, I have examined the forefoot of ~~the~~ *M.S. Cahol R.F.A.*

The stem, from the toe to ten or twelve feet aft, has a liberal coat of mud and clay,

The two holes in the bottom part of the stem casting, were filled hard with clay, I cleared the clay out of these holes.

There is no apparent damage whatever, and the stem is in no ways bent, there is nothing further to report.

Your Truly,

*Chas. R. Williamson.**Diver.*
