Dear Sir

REC'D 2
ANCO

100771

Enclosed some photo,s of the Greek steamer " STATHIS " she was loaded in our harbour.

steamer arrived here from Maccasser with a load of 1920 tons of coprah. Here she loaded in her ,tweendecks 1460 barrels coconut oil, and 8 barrels on her dewk.

barrel contains 180 liter oil.

theron she loaded here the holds full and on her decks 12576 bags of coprah weighing about 750 tons.

steering chains , the sounding pipes to the tanks and bilges they all were stowed under the cargo, so that they were unusable.

the cargo on deck was covered by tarpaulins ,but I think this not sufficient in bad weather ,when the seas are rolling over.

The master required for a certificate of seaworthiness ,but in my opinion, his ship at that moment not seaworthy and I refused to give a certificate.

When the coprah on the deck was taken over ,the steamer loaded 180 tons coal on deck.

The steamer was bound for Rotterdam.

In this year the New law for shipping will forbid that steamers in Inland harbours are loaded as the STATHIS, as soon as I can get a copy of the new law I will send same to You.

I am Dear Sir

Your obedient servant

Secretary of Lloyds Register
London.
