55, Fawcett Street,

Sunderland, 15th November, 1916.

LLOYD'S REGISTER
LONDON.

REC'D NOV 16 1916
ANS'D

The Secretary,
London.

Dear Sir,

In reply to your query in the classing letter of the 14th instant regarding the new steamer "SOMME", Sld. Rpt. No. 26839, I beg to state that the horizontal stiffener on collision bulkhead was a bulb angle $6\frac{1}{2} \times 3 \times .40$ and not $6 \times 3 \times .40$ as stated in the report and I regret this inaccuracy.

In regard to the bilge and bottom plating the thickness in ship are as shown on the approved plan.

I am, Dear Sir,

Yours faithfully,

L. S. Keefe
