Collingwood Buildings, Newcastle-on-Tyne.

LLOYD'S REGISTER, 3rd October, 1923.  
LONDON.

REC'D 4 - OCT 1923

ANS'D

Sir,

Re First Entry Machinery T.S.S. "ARNUS".  
Messrs. Swan Hunter & Wigham Richardson's Diesel  
Engines Nos. 1122.

I beg to acknowledge your letter of the 2nd instant.

The First Entry machinery report is in preparation  
the Builders signature and will be forwarded in due course.

It is understood that a further sea trial will be  
before the vessel is finally handed over to the Owners.  
The first sea trial was satisfactory, for your information  
we are to state that owing apparently to the removal of an  
existing liner, a flange on the starboard side of No. 5  
under entablature, starboard engine broke, a new entablature  
is now in hand and meanwhile the opportunity is being  
taken to make a few slight adjustments to the scavenger pistons.

It is estimated that the machinery will be ready  
for any further tests that may be decided on in a week or ten

~~The ship report is forwarded herewith.~~

I am, Dear Sir,

Yours faithfully,

*L. G. Skelton*

Secretary,  
London.
