

S. S. "CADILLAC".

Plans of midship section, profile and decks, and typical midship bulkhead, in triplicate, for the new midship portion of the above vessel have been forwarded by Messrs. Palmers' Shipbuilding & Iron Co.Ltd., and are at present being considered in this Office.

Mr. Dodds, representing the Builders, has called at this Office this afternoon and handed in plans of keel and middle line bulkhead, and the scantlings and arrangements have been discussed with him.

Mr. Dodds has requested that approval of the keel plate and centre girder plate might be intimated to his firm by telegram.

It is submitted the Builders be informed by wire as follows:-

"Cadillac keel plate and centre girder plate approved
"as proposed with butts of centre bulkhead in cofferdams
"Stop. Additional butt in keel plate at aft side of 45
"transverse". Keel plate traps old thickness.
