

Lloyd's Register of Shipping,

Collingwood Buildings, Newcastle-on-Tyne.

16th September 1929.

Reference

The Secretary,
LONDON.

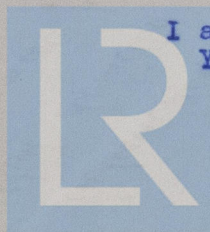

Dear Sir,

Messrs. Palmers S.B. & I. Co. Ltd., inform me that they have contracted to repair and alter the s.s. "CADILLAC", No. 16589 in Register Book.

The specification provides for the construction of a new middle portion - full length of oil cargo tanks - which, after launching, will be inserted between the original aft and forward end portions in dry dock.

They understand from the Owners that the matter has already been discussed in the London Office. If any plans have been approved I shall be glad to have copies. If not, I should like to know if it is desired that plans shewing the construction of the new middle portion should be submitted by the Builders.

I am, Dear Sir,
Yours faithfully,
