Enclosure.

22nd October, 1936.

Dear Sirs,

E.

I return herewith the plan, forwarded with your letter of the 15th instant, of air starting system proposed for Messrs. Vickers-Armstrongs' Yard No. 726, and with regard thereto I have to inform you that this plan will be approved for a working pressure of 355 lb. per sq. inch, provided the work be carried out under the usual conditions of survey and testing.

I may add it is concluded that the engine driving the auxiliary air compressor will be of the hand starting type, but I shall be glad if you will let me know if this is so.

I am, Dear Sirs,

Yours faithfully,

Secretary.
