M.

Encl.

24th. July, 1901.

Sir,

I have to send herewith a report of survey on the forged iron rudder frame made by The Dennystown Forge Co. and intended for La Constructora Naval Espanola's S.S. No. 24, and to inform you that the Society's Surveyors state that this rudder has been made in accordance with the plan approved by the Committee and is found to be good and efficient.

I have to add that this forging report should be returned by you to this Office with your first entry report on the vessel in due course.

I am, Sir,

Your Obedient Servant,

Secretary.

W. West Esq.,

CADIZ.
