55, Fawcett Street,

Sunderland, 10th November 1909.

1 Enclosure.

LLOYDS REGISTER,  
LONDON.  
REC'D 11 NOV 1909  
ANS'D

The Secretary.

LONDON.

Sir,

In reply to your query regarding the First Entry Report No. 24263 on the New Steamer "LADY HELEN", I beg to state the floor plates in Cellular Double Bottom are 6/20, thick as stated on the approved plan; the main deck is 5/16 iron where exposed and 6/20 steel under erections, and the rivet spacing in landing edges of F. strake is 3 1/7" apart, and the report has been amended accordingly.

I regret that these inaccuracies should have appeared on this report.

A Midship section of this vessel is being prepared by the builders and will be forwarded in due course.

I am, Sir,

Your obedient Servant,
