Steel S. S. " M A I Z A R " - 7293 tons gross.

Built at Glasgow by Messrs C. Connell & Co. Ltd.,  
for Messrs T & J . Brocklebank Ltd. of Liverpool.

---

This vessel was launched on the 22nd March 1917 and  
completed on the 22nd December last.

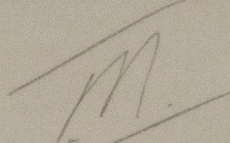

In accordance with the requirements of the Rules the  
Date of Build should be recorded as September 1917.

The Surveyors state that owing to the war the mashinery  
was not ready and this has caused the delay in the completion  
of the vessel, and that the Builders desire the Date of Build  
may be recorded as December 1917.

In view of the reason for the delay in the completion of  
the vessel the Surveyors recommended the Builders' application  
for the approval of the Committee.

The case received the consideration of the Glasgow  
Committee on the 27th December, when it was decided to recommend  
for the favourable consideration of the General Committee, that  
the Date of Build should be recorded as December 1917, as has been  
done in previous similar cases.

The case is therefore submitted for the consideration  
of the Committee.
