S.

The Secretary, ANS

LONDON.

Dear Sir,

With reference to your classing letter of the 24th instant respecting the steamer "SONJA", Malmö F.E. report No. 449, we beg to acquaint you that solid floors are fitted three frame spaces apart except forward of  $3/5$  lengths, in the engine space and under boiler bearers. The thickness of the margin plate in the boiler space is 12 millimetres.

I am, Dear Sir,

Yours faithfully,

F. R. Palmer.
